

1. Make sure to enable Futures Trading and remove any IP Restriction.

API restrictions

☒ Enable Reading ☐ Enable Spot & Margin Trading ☐ Enable Withdrawals

☐ Enable Margin Loan, Repay & Transfer ☒ Enable Futures ☐ Permits Universal Transfer

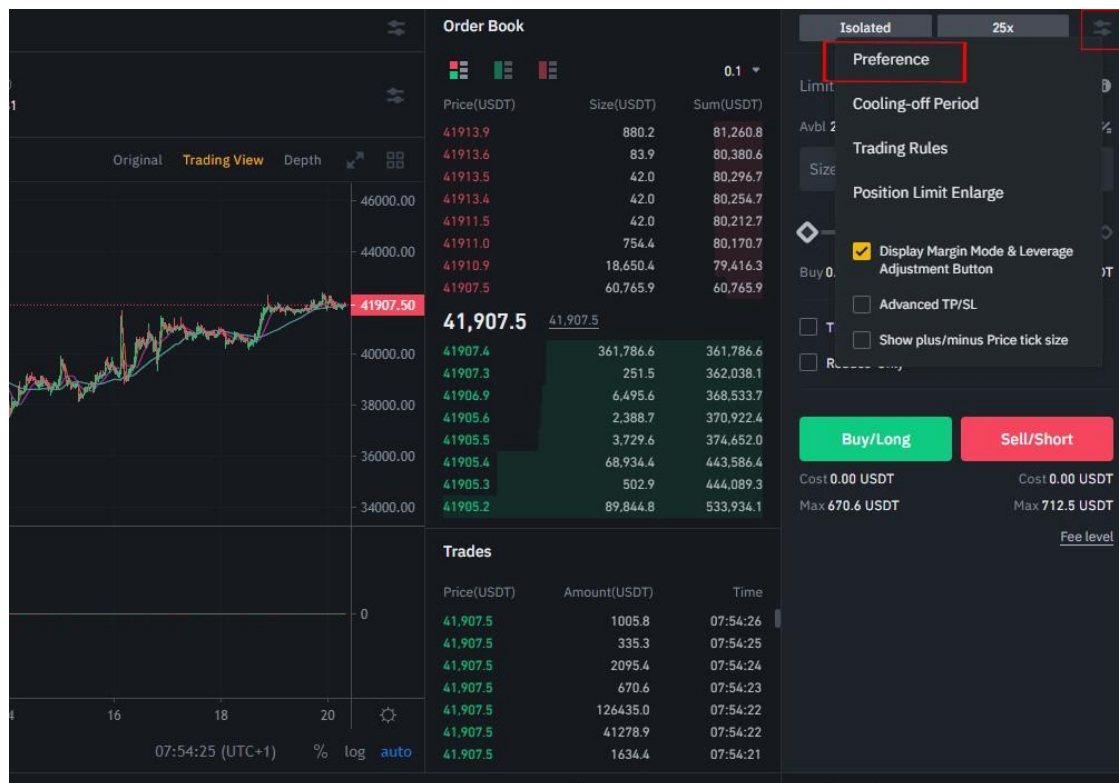

☐ Enable Vanilla Options

IP access restrictions:

☒ Unrestricted (Less Secure) This API key allows access from any IP address. This is not recommended.

☐ Restrict access to trusted IPs only (Recommended)

2. Make sure One-Way mode is selected in the trading options

The screenshot shows the 'Preference' dialog box with the 'Position Mode' section selected. The 'One-way Mode' option is chosen, indicated by a yellow dot. The 'Hedge Mode' option is also visible but not selected. The dialog box includes a close button (X) in the top right corner.

Order Confirmation

Position Mode

☒ **One-way Mode**

In One-way Mode, a symbol only supports holding a position in one direction.

☐ **Hedge Mode**

In Hedge Mode, a symbol supports simultaneously holding long position and short position, and unrealized PNL can be offset between two positions of the symbol.

Position mode cannot be adjusted with open positions or open orders in COIN-M Futures. Position mode adjustments are effective for all symbols. This setting only applies to USDⓈ-M Futures.
