Make sure One-Way mode is selected in the trading options   **2**

Preference   ✕

Order Confirmation

Position Mode   ◉ **One-way Mode**

In One-way Mode, a symbol only supports holding a position in one direction.
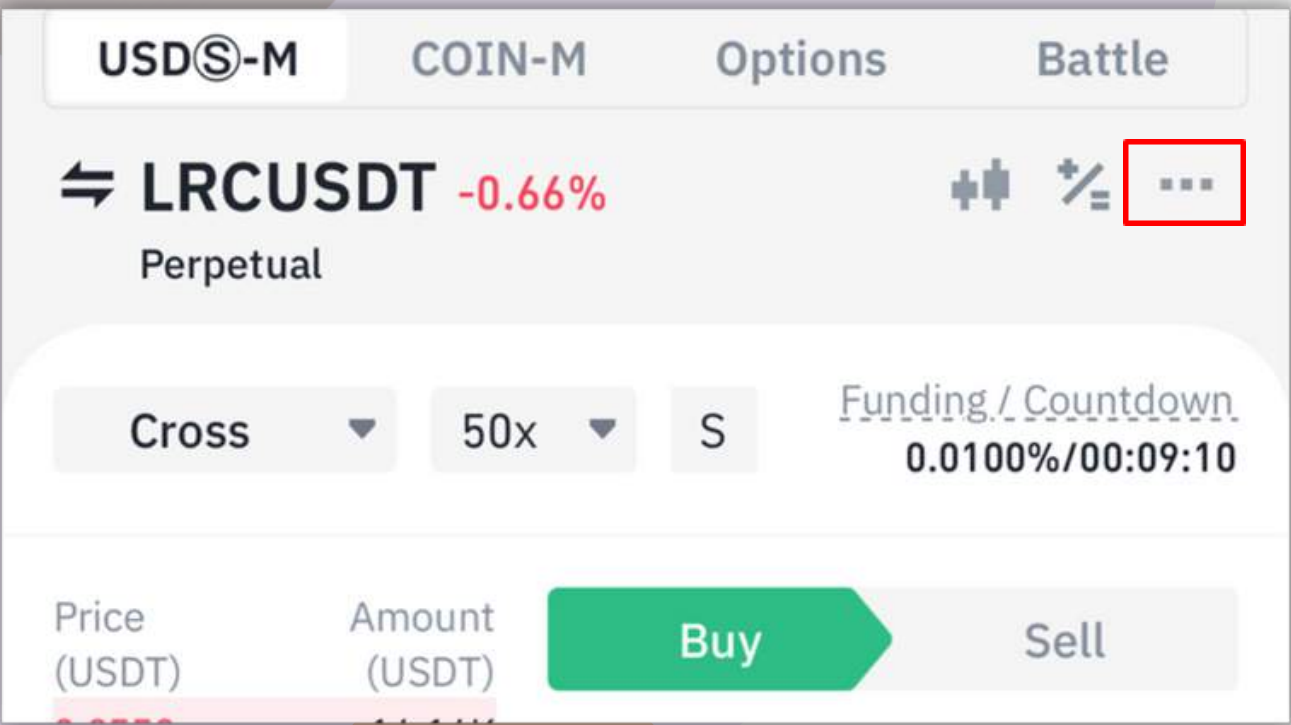

Price Protection

Notification   ◯ **Hedge Mode**

In Hedge Mode, a symbol supports simultaneously holding long position and short position, and unrealized PNL can be offset between two positions of the symbol.
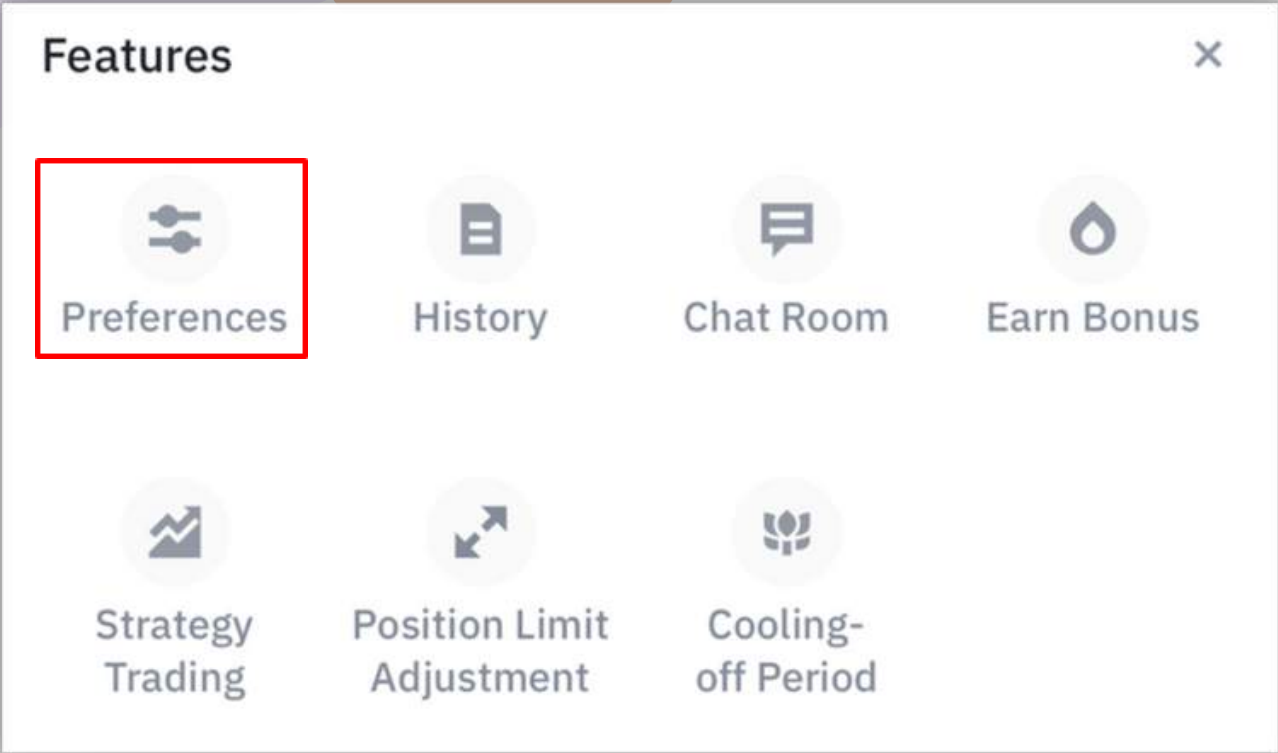

Asset Mode

Position mode cannot be adjusted with open positions or open orders in COIN-M Futures. Position mode adjustments are effective for all symbols. This setting only applies to USD Ⓢ-M Futures.

STEP 4 : Select Multi-Asset Mode

← **Asset Mode**

Single-Asset Mode ✓

· Supports USDⓈ-M Futures trading by only using the single margin asset of the symbol.

· PNL of the same margin asset positions can be offset.

· Supports Cross Margin Mode and Isolated Margin Mode.

Multi-Assets Mode ✓

· USDⓈ-M Futures trading across multiple margin assets.

· PNL can be offset among the different margin asset positions.

· Only supports Cross Margin Mode.

STEP 5 : Activate all positions in Cross Mode

Activate Multi-Assets Mode ✕

Isolated margin positions are not supported under the Multi-Assets Mode. Please adjust all USDⓈ-M Futures positions to cross margin mode in order to activate Multi-Assets Mode.

LRCUSDT   Cross 🟡

Confirm

STEP 6 : Change it back to Single Asset Mode

Single-Asset Mode ✓

· Supports USDⓈ-M Futures trading by only using the single margin asset of the symbol.

· PNL of the same margin asset positions can be offset.

· Supports Cross Margin Mode and Isolated Margin Mode.

You're all set now! Happy Gains!
